

Differentiation Planning Sheet

Content Differentiation

Strategies for varying what students learn based on readiness, interests, or learning profiles.

Process Differentiation

Strategies for varying how students learn the content, including grouping, pacing, and instructional methods.

Product Differentiation

Strategies for varying how students demonstrate their learning, including choice boards, projects, and assessments.

Student Readiness

Notes on students' current knowledge, skills, and understanding to inform differentiation.

Student Interests

Information about students' interests to help engage them in learning.

Student Learning Profiles

Details about students' preferred learning styles, strengths, and needs.

Reflection / Notes

Space for teacher reflections, observations, and planning adjustments.
