

Assessment Integration Guide

This guide helps educators align formative and summative assessments with learning objectives and instructional activities.

Section 1: Learning Objectives

- Clearly define what students should know and be able to do by the end of the unit or lesson.

Section 2: Formative Assessments

- Ongoing checks for understanding during instruction.
- Examples: quizzes, exit tickets, observations, student reflections.

Section 3: Summative Assessments

- Evaluate student learning at the end of an instructional unit.
- Examples: final projects, standardized tests, presentations.

Section 4: Instructional Activities

- Teaching strategies and learning experiences designed to help students meet objectives.
- Examples: group work, lectures, hands-on experiments.

Section 5: Alignment Notes

- Describe how each assessment aligns with the learning objectives and instructional activities.
- Ensure coherence and consistency across the instructional plan.

Reflection / Notes

- Use this section to reflect on assessment effectiveness and plan improvements.
